

fragcap

BRAND SYSTEM 1.0

Passive process-attributed network capture for games.

Brand foundation

Instrument, not weapon

Every visual and verbal decision reads as laboratory equipment. fragcap observes traffic. It does not alter game state, conceal activity, automate play, or promise advantage.

Brand idea

Captured signal. Preserved evidence. The system is quiet, controlled, and exact. It privileges evidence over spectacle and inspection over intervention.

TRAIT	EXPRESSION	AVOID
Precise	Exact nouns, units, formats, commands	Vague claims
Instrumental	Observation, capture, evidence	Combat metaphors
Dry	Calm statements, sparse wit	Hype and gamer slang
Transparent	Names boundaries and unknowns	Implied magic

Logo system

The triple-bladed F represents packet lanes. Four separated corner segments create a capture frame. Orange terminals mark isolated bytes. The lower lane is shortened deliberately so the silhouette reads as F, not E.

Clear space

Keep one orange-terminal width clear around every lockup.

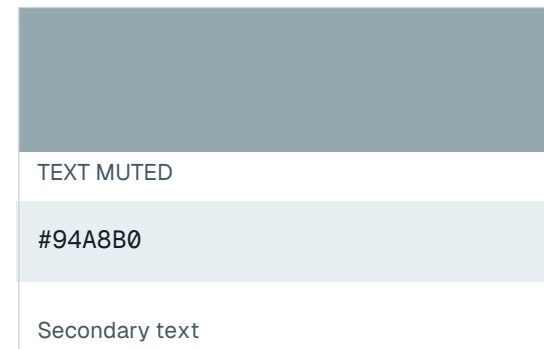

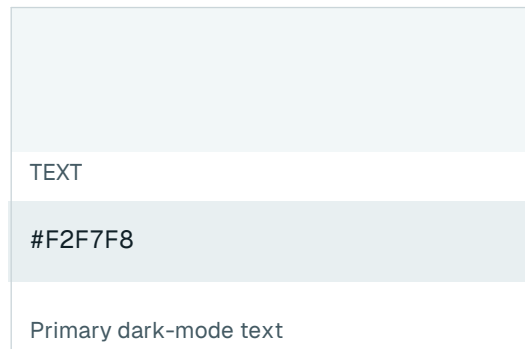

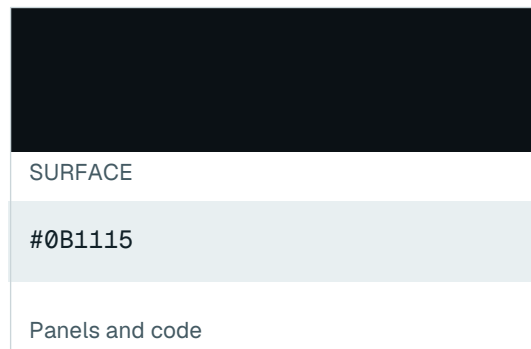

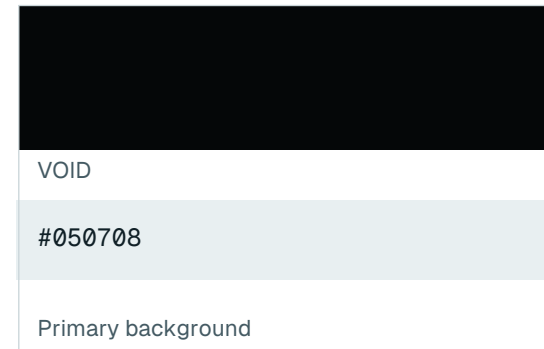

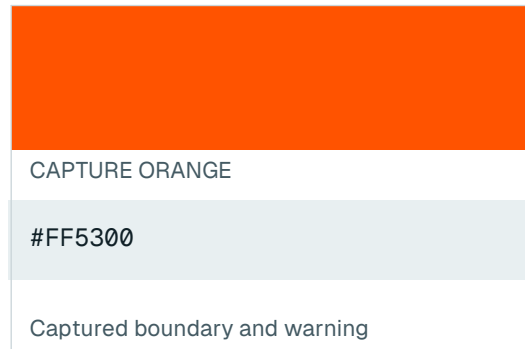

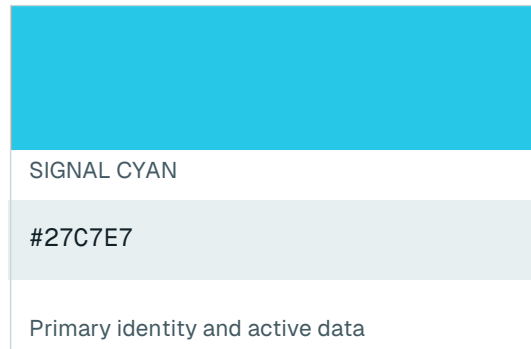

Minimum size

Mark: 24 px. Horizontal lockup: 160 px. Stacked lockup: 96 px.

Never rotate, stretch, glow, outline, recolor individual lanes, move the terminals, or close the reticle into a box or circle.

Color system

Cyan is the observed signal. Orange is the captured terminal or state requiring attention. Orange remains scarce enough to preserve its meaning.

Typography

FRAGCAP TYPOGRAPHY

Observe the traffic.

Passive process-attributed network capture for games.

Display: Space Grotesk 500/700

Body: Geist 400/500

Data: Geist Mono 400

Space Grotesk carries display hierarchy. Geist handles reading and interface text. Geist Mono carries packet payloads, code, labels, and metadata. The product wordmark is fixed custom artwork.

Voice and writing

Write precisely and dryly. Assume technical competence. Link unfamiliar terms to the glossary instead of weakening the language around them.

Preferred register

PREFER	AVOID
capture, observe, inspect, decode	intercept, attack, exploit
supported, experimental, unknown	flawless, revolutionary, effortless
requires, emits, records, filters	unlocks, dominates, supercharges

Product statement

Passive process-attributed network capture for games.

Limitation

Encrypted payloads remain opaque unless a supported decoder can derive the required session context.

Parent relationship and implementation

fragcap is an independent ShruggieTech product identity. It shares Space Grotesk, Geist, Geist Mono, dark-first discipline, and the parent's exact #FF5300 orange. It does not inherit ShruggieTech green, the shruggie mark, marketing layouts, or verbal flourish.

Approved endorsement

A SHRUGGIETECH PROJECT

Place the endorsement in footers, About pages, repository metadata, title-page colophons, and social previews. Never combine both marks into one logo.

Digital rules

Use SVG in product interfaces. Keep the dark background in small favicon exports. Do not use bright cyan as body text on light surfaces. Pair every color-coded state with text or an icon. Respect reduced-motion preferences.

Package

The accompanying ZIP contains SVG masters, high-resolution PNGs, favicons, web manifest, design tokens, font files, font licenses, a type specimen, and the complete Markdown manual.
